Feb 12, 2009

Per your email request dated February 2, 2009, attached is an electronic copy of a report that contains the names, salaries, job titles and agencies/departments of Nevada State employees for calendar year 2008. It provides details on employees in the classified, unclassified and non-classified services as well as those on boards. It does not include the Legislative Counsel Bureau and the Nevada System of Higher Education, as the Department of Personnel does not have custody of these records. Requests for these records should be made directly to those agencies. It is very important to note that this report includes only actual amounts that have been paid out. It does not reflect the legislative approved funding amounts.

Some salaries in this report may reflect partial amounts (new employees, those who left service during the year, etc.) Accrued comp time is not included in this report and any negative amounts shown are due to adjustments.

If using the Base Salary amount for figures, it is important to note that this amount does not include accrued comp time, overtime, "Pay Off" amounts or "Other" amounts. For example, if an employee took FMLA leave, or sick leave during the year, the Base Pay would not reflect the actual amount paid out to the employee since there is an additional amount in the "Pay Off" or "Other" categories that was paid out. However, if you are using the Gross Salary for figures, it must be noted that it may not be a true reflection of the employee's normal salary as it might include additional amounts from the "Pay Off" or "Other" categories.

For your reference, I have listed below the description for the pay categories listed in the "Pay Off" column:

- * ACCRUED ANNUAL LEAVE
- * ACCRUED SICK LEAVE
- * SPECIAL SICK LEAVE
- * YEAR END ANNUAL LEAVE

All other amounts paid are listed in the "Other" column. Pay categories in the "Other" column include:

- * SHIFT DIFFERENTIAL
- * SHIFT DIFF 2 DAY NDOT
- * TOOL ALLOWANCE
- * UNIFORM ALLOWANCE
- * REGULAR TIME 2 DAY NDOT
- * ADDED REGULAR TIME
- * LONGEVITY
